Construction

Complete

- **Preserve Roadway System**
- **Maintain City Infrastructure**
- **Reduce Costly Repairs**

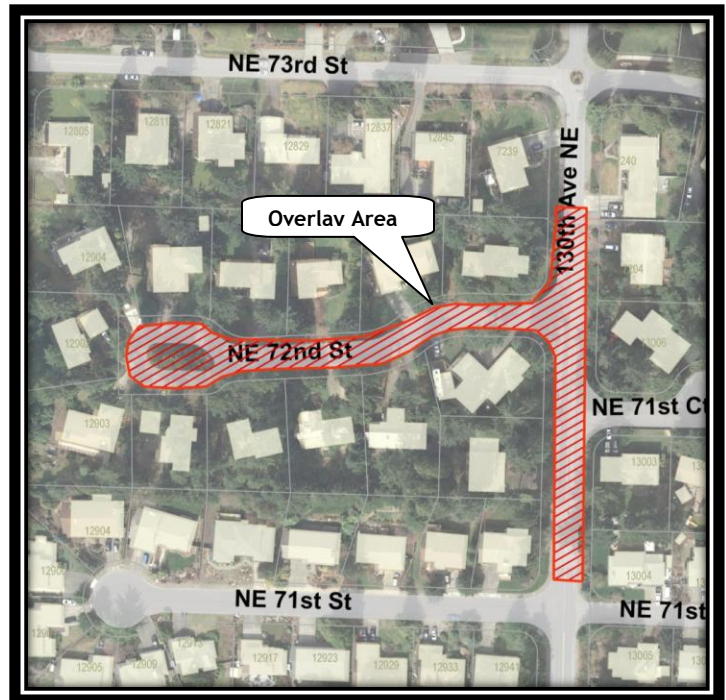

What: The City of Kirkland Street Division will be performing a hot mix asphalt overlay along NE 72nd Street and 130th Ave NE in your neighborhood. This project is funded through the City's Annual Street Preservation Program and will repave streets where sewer was installed through the Emergency Sewer Program in 2007. After the overlay, the street will look very much like it did when it was new, and will again be able to withstand the effects of traffic and weather.

When: Work is tentatively scheduled for the week of **June 28**, however activities may need to be rescheduled due to weather and scheduling of other projects. We anticipate work to last approximately one week.

Typical hours of operation are Monday-Friday 7:00am to 6:00pm.

What to Expect: During construction, on-street parking will be restricted. The City will place "No Parking" signs adjacent to the project area prior to beginning work-- once the signs are posted **please do not park in the work zone**. There may be an inconvenience associated with driving through the work zone; traffic control and flagging operations will be in effect. Flaggers and other personnel will be on site to help coordinate access and answer any questions on the day of work. All work activities will be scheduled around regular garbage/recycling pick-up schedules. Emergency vehicle access will be maintained throughout the construction process.

How You Can Help: Your cooperation in ensuring the roadway affected by the project is not obstructed with vehicles or other items is greatly appreciated. Water is harmful to all pavement repair treatments. Please avoid washing vehicles or watering adjacent lawns on the date work is scheduled. Thank you in advance for your patience and cooperation. Please contact us should you have any questions or concerns.
